EdFest

26<sup>th</sup> -27<sup>th</sup> July 2024

Mill House, Earl Soham, Suffolk, UK

This is the first announcement of EdFest 2024!

A gathering for those involved or interested in Educational Transactional Analysis (EdTA).

EdFest is not a conference: it is an Educational TA festival where the gathered community is invited to focus their attention on ideas to do with education.

EdFest is open to everyone: all fields within the TA community and educational professionals, those steeped in TA and those new to it, family and friends, children and pets, campers and non-campers.

The philosophy underpinning Ed Fest is that we want to:

- celebrate our community,
- enjoy our connections and our individuality, and
- allow the soil to inspire soul and society.

Please let our organising committee know if you are interested in joining this convivial gathering of souls by emailing: [EdFest22@gmail.com](mailto:EdFest22@gmail.com)

We really want to create a joyful, inclusive expressive space for us to come together at this special place.
